

Affiliated FM

Affiliated FM is a specialty commercial property insurance company for business and industry. We provide underwriting expertise and unparalleled property loss control engineering tailored to meet the specific needs of our clients. Our business plan is focused on writing better-quality business in the middle-market segment of the commercial property market. Working exclusively through a network of select agents and brokers, we deliver our products and services throughout North America and, internationally, in select countries, including Australia, France, Germany and the United Kingdom.

Our Value Commitment:

Affiliated FM provides innovative products and services designed to protect assets, improve operating reliability and maintain the profits and market share of our customers. We are committed to developing long-term relationships with our brokers and clients through:

- Superior property underwriting knowledge and expertise
- Customized property loss prevention engineering programs
- Responsive and efficient services in a highly automated environment
- Prompt, professional and fair claims service

We bring to these relationships a measure of stability throughout insurance cycles, minimizing surprises that often result from changing market conditions.

Affiliated FM offers a complete line of property insurance products to meet your specific needs:

proVISION: Enhanced All Risk Policy

Our form—*proVISION*—is an enhanced all risk property policy designed for optimum flexibility. It offers many special features, including a broad range of extensions in a streamlined format that is both easy to read and navigate. With its breadth of coverage and built-in flexibility, it can be tailored to meet the diverse needs of your business or industry.

Using the *proVISION* all risk form as a platform, Affiliated FM also offers other all risk policies written specifically to meet the unique coverage needs of certain industries, such as condominium associations and real estate owners.

Customized Loss Prevention Solutions

Experience has shown that the best way to manage property risk is to design a customized program that effectively blends loss prevention and control

measures with the client's risk tolerance levels. Our account engineers work with you to help you understand your property risk and develop a customized, cost-efficient program to protect your property from hazards that may expose you to loss. This enables us to concentrate loss prevention efforts on those areas of greatest significance to you.

Prompt, Professional Service

Delivering quality service is a way of life for our commercial property specialists. Instead of waiting for answers, our clients deal directly with the decision-makers, getting the answers they need, when they need them. Should a loss occur, you will receive the same high level of expertise and quality service. Our reputation for excellence in claims handling and getting clients back in operation after a loss distinguishes us from our competitors. Rated number one by our producers, our automated processing system is a uniquely designed platform that ensures prompt and accurate proposal and policy issuance. You can count on a policy that is issued quickly and right the first time.
